EDUCATION

City University of Hong Kong, *MA Communication & New Media* 2023 – 2024

- Focus: Media Data Analytics

Lanzhou University, *BA Advertising* 2015 – 2019

PROFESSIONAL EXPERIENCE

Taiping Internet 4A Advertising Agency, *Planning Intern* 01/2019 – 07/2019

- Conducted market research and competitor analysis for FMCG and beauty brands to support campaign planning.
- Assisted in preparing integrated marketing proposals and presentation materials for client discussions.
- Organised market information, audience observations and competitor findings into structured planning documents.

Fenbi Education, *Verbal Reasoning Instructor* 06/2021 – 06/2023

- Delivered structured online lessons for large student groups, focusing on clarity and engagement.
- Used learner feedback and performance data to refine lesson content.
- Managed multiple online classes and tasks efficiently.

SELECTED PROJECTS

Social Media Content Performance Analysis — Xiaohongshu / RED

- Collected and cleaned Xiaohongshu / RED post data to identify headline patterns linked to higher engagement.
- Analysed likes, favourites and headline features to summarise content optimisation insights.
- Supported a simple AI-assisted headline generation prototype, with A/B testing proposed as a next step.

Audience Sentiment & Comment Insight Analysis — YouTube Comments

- Processed 20,000+ public comments from international media platforms for audience sentiment analysis.
- Visualised word frequency, word clouds and sentiment polarity to identify response patterns.
- Summarised key themes and sentiment patterns in a visual insight report.
